**Potential Story
Angles/Ideas:**

- Current health care landscape and trends
- Combining fiscal responsibility with clinical excellence
- Developing patient care programs that extend across the care continuum
- Evidence-based equivalent devices
- Clinical application and commercialization of products and services
- Lowering the cost of care through services and analytics

As Senior Vice President, Clinical Operations, Dr. Shaden Marzouk is involved in business development and operations. She combines her medical and business expertise to help build new platforms for Cardinal Health in devices, services and analytics. Her understanding of the end-user experience supports the Medical and Pharmaceutical segments to meet the demands of the current health care market.

Prior to joining Cardinal Health, Dr. Marzouk practiced neurosurgery and performed clinical research. She also managed the Division of Neurosurgery at William Beaumont Army Medical Center. She received a Masters in Business Administration from The Fuqua School of Business at Duke University. Following the completion of her master's, Dr. Marzouk worked at Goldman Sachs in the healthcare group of the investment bank.

Dr. Marzouk received a bachelor's degree in Psychology from Washington University and graduated from the St. Louis University School of Medicine. She completed a neurosurgery residency at Henry Ford Hospital in Detroit and a fellowship in spinal deformity at Northwestern University.
